

# Nawah USNT (Universal Smart NAWAH Token) – One Pager

Empowering women & youth with culture-driven Web3, DeFi, and NFTs.

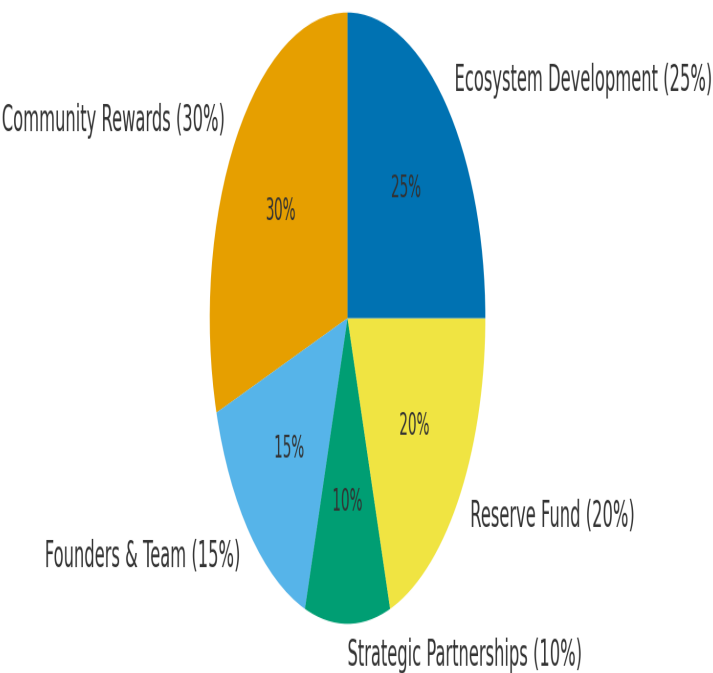

## Highlights

- Cultural identity meets Web3 utility: purpose-built for women and youth empowerment.
- Native utility across DeFi, NFTs, staking, and community tools.
- Elegant, card-based wallet logistics for multi-network addresses (Ethereum, BNB, Polygon).
- Global reach: Designed for European market compatibility and multi-chain integrations.

## Token Basics

Project Name	Nawah USNT
Ticker / Symbol	USNT
Full Name	Universal Smart NAWAH Token
Type	Token (BEP-20 at launch), upgrade path to native coin
Launch Chain	BNB Chain (BEP-20)
Total Supply	100,000,000 USNT
Contract	TBA (to be announced)
Decimals	18 (TBC)

## Token Distribution

Category	Percentage	Tokens
----------	------------	--------

Community Rewards	30%	30,000,000
Founders & Team	15%	15,000,000
Strategic Partnerships	10%	10,000,000
Reserve Fund	20%	20,000,000
Ecosystem Development	25%	25,000,000

## Native Utility

- Payment unit for smart contracts, premium features, and service access.
- Staking & liquidity participation; rewards for long-term supporters.
- NFT minting, publishing, and marketplace trading.
- Governance participation via proposal voting (DAO-ready).
- Community tools & content hosting within a self-financed ecosystem.

## Wallet Logistics – Card-Based Multi-Address UX

- Each address is presented as an elegant card: network, token, balance, QR, quick actions (Send/Receive/Stake/Copy).
- Multi-network support: Ethereum, BNB Chain, Polygon; filter by network/token/balance.
- Built for women & youth: modern look, simple flows, secure by design.
- Dashboard totals, notifications, and campaign highlights integrated.

## Multi-Chain & EU Integration

- Initial deployment on BNB Chain (BEP-20) with planned expansion to Ethereum, Polygon, and select L2s.
- EU-focused integrations: infrastructure compatibility, compliance-minded operations.

## Roadmap (High-Level)

- Q4 2025: Finalize token launch stack, wallet card UX beta, community onboarding.
- Q1 2026: NFTs & staking go-live; strategic partnerships with women/youth orgs.
- Q2–Q3 2026: Multi-chain expansion, EU integrations, DAO voting MVP.
- Beyond: Explore native chain and Coin migration pathway.

## Security & Governance

- Multi-signature treasury management; independent third-party audits.
- 2FA for sensitive actions; continuous penetration testing.
- Transparent governance with token holder proposals and votes; ownership renouncement post-launch for decentralization.
